

SOLUTION BRIEF COACHING ADVANCED

3 DAYS OF SOLUTION FOCUSED BRIEF COACHING ADVANCED

Solution-Focused Brief Coaching offers you a paradigm shift and a thrill of new (re)discoveries.

YOU ARE...

an experienced Coach, who wishes to navigate a changing landscape of a conversation and reach a further level in your coaching skills. You want to build on your experience and existing competence with a renewed curiosity. You might want to level your coaching skills up and use an existing and agreed up on system to describe and value them (ICF core competences and accreditation levels).

YOU WILL...

discover, experience and practice the finest details of the Solution-Focused approach in coaching.
develop your capacity to cooperate, to build and maintain trust and to use whatever happens in the conversation for the client
enhance your awareness of how that can make your way of coaching even more unique.

THE MODULE

Through three intensive days you will apply your coaching skills facing clients and discover the variety of possible ways to cooperate with topics, personalities and challenges that you may face in your coaching practice.

You will:

- coach and receive detailed feedback on your work linked to the ICF coach competency framework
- observe and learn from observing others coach
- support each other in your performance and learning
- get a close look at the various details in Solution Focused questions
- use the time for discovering the preferred future ways of your personal art to coach, beyond technique

BEFORE AND AFTER

Before and after there will be an online interactive webinar-meeting with focus on best hopes, review of progress and focus on further next steps on your continuous learning path.

The coaching plain and simple is part of our ACSTH Brief Coach Training Programme.
